MOTION OF DEFENDANTS FOR AUTHORIZATION TO CONSOLIDATE  
SCHOOLS AND CHANGE STUDENT ATTENDANCE ZONES

NOW INTO COURT, through undersigned counsel, come the defendants, Catahoula Parish School Board, et al, who respectfully move the Court for an order authorizing them to consolidate schools and change student attendance zones as described hereinbelow and who, in support of such motion, would show as follows:

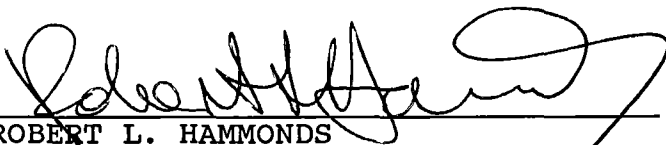

- (1) By decree dated July 29, 1969, this Court approved a school desegregation plan which provided, in part, that all children in grades 1-8 living in Ward 4 would be assigned to Manifest Elementary School and that all children in grades 1-12 living in the Enterprise area would be assigned to Enterprise High School.
- (2) The defendants desire to amend the July 29, 1969 decree of this Court by transferring students in grades 6-8 attending Manifest Elementary School to Harrisonburg Elementary School and by closing Enterprise High School

and transferring students in grades K-8 there to Harrisonburg Elementary School and students in grades 9-12 there to Harrisonburg High School.

- (3) A summarization of the reasons for which the defendants seek authorization to consolidate these schools and to change these student zones may be found in Exhibit A hereto. Further explanation and support for such requests are contained in the memorandum of authorities in support of this motion.
- (4) On March 10, 1994, the requested school consolidations and changes in student attendance zones were forwarded to representatives of the United States of America, plaintiff herein, for their review.
- (5) If approved by the Court, the changes being requested herein will be implemented beginning with the 1994-95 school year.

BOARD, ET AL,

DEFENDANTS

**MEMORANDUM IN SUPPORT OF MOTION OF DEFENDANTS FOR AUTHORIZATION  
TO CONSOLIDATE SCHOOLS AND CHANGE STUDENT ATTENDANCE ZONES**

The defendants, Catahoula Parish School Board, et al, have respectfully moved the Court for an order authorizing them to consolidate schools and change student attendance zones. Defendants seek authorization to reassign students in grades 6-8 living in the Manifest area (Ward 4) from Manifest Elementary School to Harrisonburg Elementary School. In addition, defendants seek to close Enterprise High School (grades K-12) and to assign students in grades K-8 to Harrisonburg Elementary School and students in grades 9-12 to Harrisonburg High School. This memorandum is submitted in support of defendants' motion.

On July 29, 1969, this Court approved a school desegregation plan for Catahoula Parish which has remained largely unchanged since that date. In that plan, all children in grades 1-8 living in the Manifest area (Ward 4) were assigned to Manifest Elementary School and all children in grades 1-12 living in the Enterprise area were assigned to Enterprise High School. For educational,

social, and financial reasons, defendants seek the requested authorization. Each of the proposed changes will be discussed separately hereinbelow.

#### **CLOSURE OF ENTERPRISE HIGH SCHOOL**

As of this date, Enterprise High School has only 94 students in grades K-12 (13 grades). Defendant school system is having serious financial difficulties, and it can no longer continue to financially justify the operation of such a small school. The closure of this tiny school would save the school system approximately \$300,000 per year. Harrisonburg Elementary and Harrisonburg High School are the closest schools to Enterprise (approximately 15 miles) and are much closer than the next nearest schools (Jonesville and Sicily Island), which are 25 and 27 miles away, respectively. The consolidation of these schools would also allow the school system to provide the students with a better quality of education through more diversified course offerings, better qualified teachers, and the better peer learning which results from students attending a larger school. There would also be social benefits for the former Enterprise High School students since greater social interaction would be possible in the larger school setting.

#### **REMOVAL OF GRADES 6-8 FROM MANIFEST ELEMENTARY**

Students in grades 9-12 living in the Manifest area have been assigned to Harrisonburg High School since long before the federal

court decree of July 29, 1969.<sup>1</sup> The authorization now requested by defendants would permit students in grades 6-8 living in the Manifest area to also attend school in Harrisonburg, which is approximately 10 miles away. This change would result in an approximate savings to the school system of \$50,000 per year. Though less than 50 students would actually be involved in the reassignment, those students would reap the same educational and social benefits previously described for Enterprise High School students going to schools in Harrisonburg.

#### **SUPPORTING DOCUMENTATION**

In support of its motion, defendants have attached hereto and incorporate herein the following documents:

- (1) Exhibit A -- Summarization of action sought by Board and justification therefor;
- (2) Exhibit B -- Agenda and minutes of School Board meeting of February 1, 1994 showing action taken by School Board;
- (3) Exhibit C -- Catahoula Parish School Board annual financial and statistical reports demonstrating a declining account balance;
- (4) Exhibit D -- Itemization of cost savings effected in requested school consolidation and attendance zone changes;
- (5) Exhibit E -- Current racial breakdowns of student enrollments, by grade, at Manifest Elementary School,

---

<sup>1</sup> It is believed that high school students residing in the Manifest area began attending Harrisonburg High School in 1945.

Enterprise High School, Harrisonburg Elementary School,  
and Harrisonburg High School.

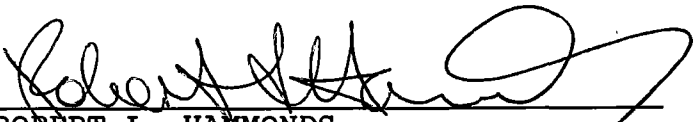

(6) Exhibit F -- Map detailing current attendance zones.

**CONCLUSION**

For the reasons described hereinabove, defendants, Catahoula Parish School Board, et al, seek authorization from the Court to close Enterprise High School and assign the students in the Enterprise area to Harrisonburg Elementary and Harrisonburg High School and to reassign the students living in the Manifest area in grades 6-8 to Harrisonburg Elementary School. Such changes will improve course offerings for effected students, will improve opportunities for social interaction for the effected students, will have negligible impact on racial composition of the receiving schools, and will result in substantial savings to the defendants. Defendants respectfully seek such approval, therefore, with the changes to be implemented beginning with the 1994-95 school year.

Considering the Motion of Defendants for Authorization to Consolidate Schools and Change Student Attendance Zones;

Action by Board:

1. Close Enterprise High School, grades K-12, and transfer students to Harrisonburg Elementary and Harrisonburg High School.
2. Transfer students in grades 6,7 and 8 of Manifest Elementary to Harrisonburg Elementary.

Justification

1. The Catahoula Parish School Board is facing a looming financial crisis. Financial reserves have gone from \$814,311 in June, 1990 to \$208,802 projected for June, 1994.
2. The savings resulted from the Board action will be approximately \$307,468.
3. Enterprise High School has only 94 students in K-12 (13 grades). It is an economic nightmare to operate a school for this number of students and cannot be financially justified.
4. Students from the Manifest area in grades 9-12 are already assigned to Harrisonburg High School under Federal Court Order. This action will now provide that students in 6-12 of this community attend Harrisonburg Schools.
5. Only one additional bus will be required to transport the grades 6, 7 and 8 Manifest students the required 10 miles. This will result in an approximate savings of \$50,000.
6. Harrisonburg is the nearest community to Enterprise (15 miles). The next nearest communities (schools) to Enterprise are Jonesville and Sicily Island, 25 and 27 miles respectively.
7. The consolidation of the schools of these schools will allow for a better quality of education to be provided these students. A more varied and wider course offering, courses taught by more specialized certified teachers, and better peer learning will result from the students attending a larger school.
8. Greater social interaction among all students will be available.
